

HAVELLS

Experience the Latest & Safest in Building Circuit Protection

6 YEAR WARRANTY*
YOUR TRUST, OUR PROMISE.
FOR A SHOCKPROOF LIFE.

LIST PRICE
w.e.f. 14th February, 2023

*Warranty for a period of six years on MCB & RCCB when fitted in "Havells" distribution boards. When fitted in any other distribution board, warranty period is one year.

INDUSTRIAL PLUG & CONNECTOR

Industrial plug and socket are used to provide power in industrial environments and areas exposed to corrosive chemicals, extremes of weather and rough use with high demands on safety, reliability and durability. Havells provides a comprehensive range of plug and socket to suit all environments & applications, manufactured to the highest quality and having robust ergonomic design.

Havells industrial plug & socket range adopts 'preventing incorrect insertion' design and its high grade thermoplastic material ensures good electric insulation, high impact resistance, dustproof, damp proof and watertight connections. Nickel plated contacts provide better corrosion resistance in aggressive environments and at high degrees of air humidity.

HAVELLS provides IP 44 range of plug & socket, protected against splashing and spraying of water, and IP 67 weatherproof plug and socket range that can withstand temporary immersion in water. Some typical applications are highlighted below.

Application

Agriculture	Mobile or portable equipment or appliances used or stored on sheltered premises.	Outdoor installation of pumping, ventilation, drying equipment.
Chemical industry	Indoors on premises for storage and maintenance purposes where connections are not exposed to the risk of immersion or chemicals.	On premises without risk of explosions but where the connections are exposed to chemicals and subject to possible immersion.
Construction sites and shipyards	On covered construction sites sheltered against weathering but exposed to splashing with water.	On outdoor construction sites where the connections are left on damp ground exposed to freezing, dust and weathering.
Sports complexes and other places of public entertainment, TV and film studios	On sheltered premises protected against the weather, though exposed to splashing, without high connected loads.	Outdoor connections exposed to rain, snow, mud, freezing and other critical weather conditions. Where mated safety is required. Where high voltage for lighting installations, T.V. and audio are foreseen.
Food industry	In sheltered locations, on indoor premises used for storage and maintenance.	In locations subject to washing by hosing down and where connections are subject to heavy duty.
Heavy industry	In sheltered warehouses, maintenance workshops, assembly and moulding areas.	In rolling mills, foundries, blast furnaces, etc., where the connections are exposed to dust, metallic shavings, coolants and are subject to vibrations and impact.
Light industry	Locations without high humidity or ambient pollution serving for assembly, moulding, maintenance and storage	On premises subject to cleaning by means of chemical solvents. Also where heavy loads require high safety in connections.
Installations for IT centres	For electrical connections executed above floor level.	For electrical connections under raised floors with risk of immersion. Where heavy loads require high safety in connections.
Ports	In sheltered locations such as docks, repair shops, offices, etc.	Quays, docks, piers, etc. where there is risk of high waves and partial flooding.
Airports	In sheltered locations, hangars, repair shops, warehouses.	Outdoors for connection between mobile or portable appliances and aircraft.
Water treatment plants	Indoor use in repair shops, etc.	In all locations with risk of flooding and for outdoor use with pumps, aeration and ventilation systems.

CONTROL & MONITORING DEVICES

Time switches are used in residential, commercial and industrial premises to improve comfort and save energy by switching loads automatically as per real time. Havells offers a variety of time switches to precisely meet the requirements of different applications. The range offers several feature benefits such as different options of minimum switching time, internal battery to enable the timing function in case of power failure, daily and weekly versions, simple and compact design.

Features

- Digital and analog version
- Easy time setting
- Helps in saving energy & time
- Text oriented user guidance in display
- Modular, compact & din-rail mountable design

Range

- Multifunction Time Switch
- Digital Weekly Time Switch
- Astronomical + Digital Time Switch
- 24 hours Analog Time switch
- Twilight Time Switch
- Staircase Time Switch

Large LCD Display

Easy snap on din-rail mounting

Protective Cover

For protecting the LCD from mechanical shocks & scratches

Manual Override Option

All time switches have the option to manually override the programming and permanently ON/OFF the circuit for emergent situations (without disturbing the pre-set program).

Time Switch

Time switches are used in residential, commercial and industrial premises to improve comfort and save energy by switching loads automatically as per real time. Havells offers a variety of time switches to precisely meet the requirements of different applications. The range offers several feature benefits such as different options of minimum switching time, internal battery to enable the timing function in case of power failure, daily and weekly versions, simple and compact design.
